

# RESUME

**Name:** Roman Alifanov

**Date of Birth:** October 23rd 1989 (10/23/1989)

**Marital Status:** Married

**Address:** Lauritz Hervigsvei 95F, 3035 Drammen, Norway

**Phone:** (+47) 940 38 740

✉ **E-Mail:** [animaonline@gmail.com](mailto:animaonline@gmail.com)

🌐 **Web Site:** <http://www.animaonline.com>

🐦 **Twitter:** <http://twitter.com/animaonline>

🌐 **LinkedIn:** <http://www.linkedin.com/in/animaonline>

## Education

- Self-Taught
- Over 5 years of work experience.
- Certifications (Transcript ID (751776) Access Code (12345678)  
<https://mcp.microsoft.com/authenticate/validatemcp.aspx>)
- Strømsø VGS. (College) (Drammen, Norway)

## Developer Experience – bigger projects

- Animaonline SNES <https://market.android.com/details?id=animaonline.android.snes.emu> (a Super Nintendo / Famicom emulator for Android devices)
- Geex (A multi-platform 2D RPG game engine made using XNA) <http://www.geexpowered.com/>
- Librify (An online music streaming (search-engine) platform , written in C# uses Silverlight for UI (available for desktop and Windows Phone 7) <http://www.librify.net>) (Librify has been discontinued.)
- EMERGEit Image Editor <http://animaonline.com/bbhdemo> (A Silverlight image editor for Sharepoint)
- AMM (A data compression algorithm, that utilizes the power of the new multi-core processors)
- Animaonline Weather API (<http://www.codeplex.com/awAPI>)
- Animaonline Port Scanner (<http://www.codeplex.com/APS>)
- Animaonline Remote Desktop (<http://www.codeplex.com/ARD>)
- DotMail (<http://dotmail.codeplex.com>)
- Xinx Broadcast Chat (<http://xbc.codeplex.com>)
- Xinx Remote Screen (<http://remotescreen.codeplex.com/>)
- Animaonline Windows Live Presence Wrapper (<http://awlp.codeplex.com/>)
- Windows CE 5.0 Portable - Mini (Hardware)

- pSX The PlayStation Emulator (Translation to Norwegian and Russian)  
(<http://psxemulator.gazaxian.com/>)

**(Most of my projects are open-source. I believe in Open-Source but I also believe that people have to eat to live and you honestly don't need (or even want) EVERYTHING to be open-source.)**

## **Work Experience**

### **January 2007-May. 2009 Software Scenario**

#### **IT Consultant / Microsoft Certified Trainer (Software Developer)**

I started working in Software Scenario at the age of 17, on January 2007, I worked on in-house development tools and API's with common functions that would be shared through some of our application to maintain a common standard.

As a consultant, my main tasks included developing software for Montel AS, as well as other companies, including Arctic Securities (Whom I developed a VSTO based Excel solution for. The solution was used as a Microsoft Office Excel add-in with features that Microsoft Excel did not incorporate, like, custom chart templates with custom color, font and geometric properties as well as support for vectorized c output)

And Sonans/ IT Akademiet (where I maintained their Thomson Prometric based test center.)

### **January 2007-May. 2009 Montel AS**

#### **Software Developer**

I worked with real-time exchange data from various power exchanges across Europe.

I wrote parsers and data processors that handled the real time exchange data, which would later be presented through Montel's services and on their website

(<http://www.montelpowernews.com/>)

Montel Powernews is one of the leading providers of information and price quotes from the Nordic and European Power Markets.

### **April 2008-Jan. 2009 Ubuntu Foundation**

#### **(Localization Contributor)**

I did localization contributions for Russian and Norwegian software packages (Mainly GRUB Bootloader and GNOME)

### **October 2009-March 2011 EMERGEit AS**

#### **Software Developer**

I developed Silverlight based Sharepoint webparts that integrated closely with Sharepoint through it's webservices, my major projects included an image editor for Sharepoint developed in Silverlight and a streaming video player that utilized Microsoft's smooth streaming technology.

I also developed VSTO based software using C# and C++ (CLI),

### **October March 2011-October 2011 Ganske Enkelt AS**

#### **Software Developer**

I wrote "Mobile PBX" based software for Windows, the software was used for mobile phone automation, such as logging of incoming / outgoing calls and messages to SuperOffice CRM. I also developed add-ins and other custom programs for SuperOffice CRM software using c# and other in-house scripting languages.

### **October 2011 - Present Addovation AS**

#### **Software Developer**

I develop software that integrates with and extends IFS.

## **Honors and Awards**

- Windows Live QNA MVP 2006
- [Microsoft TechNet IT Hero 2007](#) (Awarded for being Norway's youngest MCT)

## **Tools**

- Visual Studio
- IFS
- SuperOffice CRM
- .NET Framework
- Mono Framework
- Team Foundation Server
- Windows Operating Systems
- Android SDK
- Eclipse
- SharePoint
- Windows CE
- Windows Embedded
- Windows Mobile
- .NET CF
- Pocket PC
- Photoshop
- Notepad

## Programming languages

Throughout the years, I have gained good knowledge of these programming languages and technologies.

- C#
- Java
- VB. NET / 6.0
- C++
- Visual C++
- F#
- HTML / 5
- XAML
- JavaScript
- Qbasic
- Dark Basic
- RealBasic
- ILASM
- Ruby
- Python
- Delphi

## Operating Systems

- **Windows:** I have used Windows all my life. My first computer was running MS DOS 6.0 and Win 3.11 and I feel very comfortable using and developing software for a Windows operating system.
- **Linux:** I'm interested in cross-platform software development as well as the open source, that's why I use Linux Operating Systems.
- **Windows CE / Embedded / Windows Mobile / Windows Phone 7**

## Languages

- **Norwegian** (fluent)
- **Russian** (fluent)
- **English** (fluent)

## Certifications

### Microsoft Certified Technology Specialist

- SQL Server 2005
- Microsoft Windows Vista: Configuration
- Microsoft Windows Mobile 5.0: Configuration
- Microsoft Windows Mobile 5.0 Application Development
- Microsoft Office SharePoint Server 2007: Configuration
- Microsoft Windows SharePoint Services 3.0: Configuration

### Microsoft Certified Application Developer

- Microsoft .NET

### Microsoft Certified Professional

- Windows Server 2003

### Microsoft Certified IT Professional Enterprise Support Technician

**Microsoft Certified Trainer**

## **Interests**

- My family takes most of my spare time; I appreciate spending my time with them.
- Programming
- Interested in everything that has something to do with computers (Hardware/Software)
- I like playing Role-playing Games (Final Fantasy, Dragon Quest and other Japanese RPG's)
